Reconstruction of WIS 20/83 in Waterford to get underway

In early January 2019, the Wisconsin Department of Transportation (WisDOT) is scheduled to begin the reconstruction of WIS 20/83 in the village of Waterford. This project will reconstruct approximately 1.7-miles of roadway from Buena Park Road to WIS 36, and will replace the existing bridge over the Fox River.

What to Expect

- Main Street – from Milwaukee Street to Jefferson Street – will remain open to traffic by being reconstructed in stages. This includes reconstructing the bridge over the Fox River in phases to help keep it open at all times.
- Main Street – from Jefferson Street to Buena Park Road – will be closed to through traffic.
- 1st Street/Beck Drive – from Main Street to WIS 36 – will be closed to through traffic.
- Access for local residents and businesses will be maintained throughout the project.

Detour

- County W (Buena Park Road and Front Street) ↔ County D (Main Street) ↔ WIS 36.

Construction Kick-off Meeting

Prior to construction, the project team will be hosting an informational meeting for affected residents, local officials, and business owners to discuss the project in detail. Those directly affected have been previously notified.

Meeting Details:

Thursday, December 20, from 4-6 p.m.

Waterford Library – Meeting Room | 101 N. River Street, Waterford

The contractor, Zenith Tech, Inc., is planning on completing the \$17 million project by late fall. The schedule of work is weather dependent and subject to change.

More information can be found on the project website at: <https://projects.511wi.gov/20waterford/>
